# **EAST AYRSHIRE COMMUNITY PLAN**

## **IMPROVING COMMUNITY SAFETY**

### **ACTION PLAN 2011 - 2015**

14 March 2011

## INTRODUCTION

Community Planning is about working in partnership and sharing resources to deliver quality services which improve the quality of life of and make a difference to individuals and communities in East Ayrshire. The Community Plan is the overarching strategic planning document for the delivery of public services in East Ayrshire over the 12 years from 2003 to 2015 and sets out the overall vision for the local area, as follows:

*'East Ayrshire will be a place with strong, vibrant communities where everyone has a good quality of life and access to opportunities, choices and high quality services which are sustainable, accessible and meet people's needs'.*

Community Planning Partners work in partnership with the community, the voluntary sector and all relevant partners to plan and deliver local services and the Community Plan Guiding Principles, reviewed and amended as part of the Four-yearly Review 2010/11, underpin all of our activity and ensure that we work in a way which:

- promotes equality of opportunity, social justice and social inclusion;
- ensures effective community engagement in the planning and development of local services;
- ensures quality and accessibility;
- builds sustainability into what we do;
- delivers continuous improvement and best value while improving efficiency and productivity; and
- promotes early intervention in the delivery of services.

The key focus of the Community Plan is on the delivery of tangible actions, which make a difference in the communities across East Ayrshire. Action is delivered through the four Community Plan Action Plans and the service/implementation plans of all the Partner agencies. The Plan identifies a number of challenges facing East Ayrshire that Partners have agreed to address via the four priority themes of:

- Promoting Lifelong Learning
- Delivering Community Regeneration
- Improving Community Safety
- Improving Health and Wellbeing.

This document is the Improving Community Safety Action Plan 2011-2015, which acts as the driver for partnership working in relation to improving community safety in neighbourhoods and homes, and protecting our most vulnerable individuals and families.

## IMPROVING COMMUNITY SAFETY ACTION PLAN

The development of the Action Plans for the period 2011-2015 has seen a move to outcome based planning and we have been ambitious in developing the key actions to achieve our identified Local Outcomes. However, the current financial climate and the one-year budget settlement (2011/12) make robust forward planning difficult. Consequently, although the Action Plan has projected outputs for the four year period from 2011-2015, it will be a flexible and dynamic document, which will evolve and grow, reflecting the reality of our local circumstances as we go forward.

### Strategy / Policy Context

The Local Government in Scotland Act 2003 continues to provide a strong and supportive legislative framework for Community Planning and necessitates an ongoing commitment from Partners to meet its statutory requirements. In addition, there are key national and local drivers, which continue to inform the activity within the Action Plan, including those detailed below.

## **STRATEGIC PRIORITIES, LOCAL OUTCOMES AND ACTIONS**

The Local Outcomes and Actions contained in the Action Plan have been informed by wide ranging consultation and engagement with communities, partners and key stakeholders, undertaken during the Four-yearly Review in 2010/11.

### **STRATEGIC PRIORITIES**

- Improving community safety in neighbourhoods and homes, and protecting our most vulnerable individuals and families.

### **LOCAL OUTCOMES**

- Crime and anti-social behaviour tackled, and the fear of crime and anti-social behaviour reduced
- Preventative and diversionary activity delivered
- Community safety in neighbourhoods and homes improved
- Protection of children and the safety of vulnerable adults, individuals and families promoted.

### **PERFORMANCE MONITORING**

Community Planning Partners will continue to review and report on performance on an annual basis. We have set challenging Local Outcomes against which to measure progress. There are robust systems in place through the Single Outcome Agreement to allow us to measure our performance towards achieving them and, most importantly, to let the people of East Ayrshire judge how well we are doing, both year on year and over the life of the Community Plan.
