

EAST AYRSHIRE COUNCIL

GOVERNANCE AND SCRUTINY COMMITTEE– 11 MARCH 2011

FINANCE AND SERVICE STRATEGY REPORT

Report by Executive Director of Finance and Corporate Support

1 PURPOSE OF REPORT

- 1.1 To advise Members of the projected financial position for the year based on expenditure to 6 February 2011 (Period 11) and information provided by Executive Directors. Members should refer to the detailed information contained within the Finance and Service Strategy Report booklet issued as part of the Cabinet agenda on 9 March 2011.

2 GENERAL SERVICES

- 2.1 The overall projected outturn for the year to 31 March 2011 is an uncommitted surplus of £3.352m. This will increase the General Fund Uncommitted balance to £12.031m at the year end. As indicated in the budget report (10 February 2011), there will be a requirement to utilise a significant proportion of this balance to fund severance packages.
- 2.2 The Council approved the 2011/12 Budget on 10 February 2011, which included a package of savings measures to address the identified budget gap. Considerable progress has already been made in the current financial year in relation to achieving future years' savings, including through the management of vacant posts, business reviews, the efficiency strategy and specific management actions. While these actions are intended to contribute to the savings targets required in future years, they have also delivered in-year savings for 2010/11.
- 2.3 It is anticipated that the department of Educational and Social Services will outturn £1.084m under budget at 31 March 2011. Educational Services is anticipated to outturn £0.795m under budget including underspends in both teaching and ancillary staff costs; the deployment of probationers; and efficiency savings within Onsite Services. £0.709m of the favourable variance relates specifically to devolved school budgets, and this will require to be critically reviewed at the year end. A review of the scheme of delegation in schools is due to be carried out, and delegated budgets will form an integral part of this work. The variance has been partly offset by £0.453m of additional Outwith Placements costs, which have been running over budget throughout the financial year.

- 2.4 Social Services is anticipated to outturn £0.289m under budget with significant savings continuing to be made from the timing of recruitment to vacant posts. The service however, recently advertised a significant number of high priority posts that will allow the service to meet operational objectives within an overall balanced budget. This is partly offset by pressures in respect of looked after children, legal costs, additional adult care placement costs and self-directed care costs. Efficiency retiral costs and other costs, mainly in relation to the re-design of services, of £1.576m are also included in the projected under spend.
- 2.5 The Executive Director of Neighbourhood Services anticipates that the department will outturn £1.415m under budget mainly due to savings in employee costs and additional income from Roads and Transportation rechargeable work, partly offset by reduced Planning and Building Standards income. The service have identified £0.533m that is required to be earmarked at the year-end in respect of Planning and Economic Development initiatives; £0.250m that was previously agreed by Cabinet for an additional salt storage facility; and a further £0.090m in relation to implementing the Disabled Person's Parking Places Act. The Executive Director also proposes that the remaining £0.180m underspend within the Roads Service is earmarked specifically to increase the winter maintenance contingency balance already held of £0.747m. This would reduce the Neighbourhood Services variance to £0.362m under budget. Members will be aware that additional monies were given to Roads in the budget for carriageway repairs following the extreme winter. A framework agreement to allow external contractors to undertake this work has recently been finalised and significant volumes of repairs will now be undertaken in advance of next winter.
- 2.6 The Executive Director of Finance and Corporate Support anticipates that the department will outturn £0.594m under budget at 31 March 2011, predominantly arising from employee and premises costs savings. The premises saving is as a result of a reduced level of completed central repairs due to the rate at which the new contractor can undertake repairs. Severance costs in several areas of the department and shortfalls in income partly offset the variance.
- 2.7 Central Services is anticipated to be £3.870m under budget. The variance includes £0.943m transferred from departmental budgets in respect of the Efficiency Strategy (SRRB2) as well as £0.344m in respect of the revised Local Government Employees pay inflation. These savings are recurring and will deliver future years' budget savings. Savings are also anticipated in-year on one-off VAT reclaims, centrally held funding for Zero Waste Fund and Carbon Reduction Commitment. The costs of decanting pupils from Gargieston are estimated at £0.267m and partly offset the overall variance.

- 2.8 Debt charges are anticipated to be under budget by £0.600m partly due to the profiling of the capital programme, a favourable cash flow position and additional investment income in the year.
- 2.9 There is a favourable variance in respect of Housing and Council Tax Benefit income of £0.402m due to the effective overpayment recovery process.

3 HOUSING REVENUE ACCOUNT (HRA)

- 3.1 The Housing Revenue Account is expected to outturn £0.453m under budget at 31 March 2011.
- 3.2 Live jobs have reduced from 13,422 at period 10 to 11,137 at period 11. A short term specific programme using additional temporary craft operatives will allow existing housing improvement and response repairs to continue while addressing outstanding gutter repairs, chimney removals, builder work, plasterer work and roughcast repairs.
- 3.3 The report to Cabinet on 24 February 2010 recognised that budgets not utilised by internal provision would be used to outsource work for which there was no in-house capacity available. The Head of Housing is in the process of agreeing work with the new contractor to further alleviate tenant demand and address preventative maintenance.

4 CAPITAL PROGRAMME

- 4.1 The projected expenditure on the Council's capital programme is anticipated to be £47.266m, further analysis is shown in the Capital Summary shown on Page 6 of the booklet. This is broadly in line with the estimated position following reprofiling adjustments approved at Cabinet on 19 September 2010.
- 4.2 The refurbishment works to the former Johnnie Walker Bonded Warehouse in Strand Street are nearing completion. Full occupation of the building requires work by IT and Asset Management staff in relation to commissioning of IT kit which will clash to some extent with the timescale for the commissioning of the council's new Data Centre at London Road Headquarters. The Data Centre project needs to have priority and so full occupation is likely to be delayed until May 2011. As part of the finishing works to the Strand Street, building signage is being procured and it would be helpful to have members' approval of a name for the building. Given the former use of the building and the opportunity to ensure that a lasting link exists in Kilmarnock with Johnnie Walkers, it is proposed to name the building "The Johnnie Walker Bond". This would be displayed along the frontage of the building and would be part of the official address.

5 GENERAL FUND UNCOMMITTED BALANCE

- 5.1 The Financial Reserves Strategy sets the level of the Uncommitted General Fund Balance at between 2% and 4% of Annual Budgeted Expenditure. During the current financial year commitments of £0.308m have been approved by Council and Cabinet and have reduced the balance to £8.679m. Including the forecast surplus for the year, this will increase to £12.032m which equates to 3.6% of the annual budgeted expenditure for 2010/11.
- 5.2 As outlined in paragraph 2.1, the 2011/12 draft budget proposals indicate the potential for a significant one-off cost associated with severance packages. This would have a significant impact on the balances currently held, reducing the level of uncommitted balance to around 1% of annual budgeted expenditure

6 RECOMMENDATIONS TO CABINET

- 6.1 It was recommended that Members:
- (i) Note that there are no Education recommendations;
 - (ii) Approve the Neighbourhood Services earmarked balances as noted at paragraph 2.5;
 - (iii) Agree that the refurbished office complex in Strand Street be named "The Johnnie Walker Bond"; and
 - (iv) Otherwise note the contents of this report.

7 RECOMMENDATIONS

- 7.1 It is recommended that Members:
- (i) note the recommendations to Cabinet on 9 March 2011 as at paragraph 6; and
 - (ii) otherwise note the contents of the report

Alex McPhee
Executive Director of Finance and Corporate Support

FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

Quality | Equality | Access | Partnership

Efficiency Theme	Description
MUA	Maximising the utilisation of assets
KSO	Focusing resources on activities which deliver key service objectives
CND	Adjusting service levels to reflect current need and/or demand
BRS	Business Review of specific services to achieve reduced costs which do not impact on service levels or council policies
AMW	Obtaining maximum efficiency through alternative methods of working
ITS	Deployment of Information Technology solutions releasing cash efficiencies
BWP	Benefits achieved through effective workforce planning
CPF	Core payments reduced reflecting the overall reduction in Scottish Government grant funding
RSP	Efficiencies to be achieved through a review of service provision
CFS	Review of policies and procedures for charging for services

EAST AYRSHIRE COUNCIL

CABINET – 9 MARCH 2011

FINANCE AND SERVICE STRATEGY REPORT

Report by Executive Director of Finance and Corporate Support

1 PURPOSE OF REPORT

- 1.1 To advise Members of the projected financial position for the year based on expenditure to 6 February 2011 (Period 11) and information provided by Executive Directors.

2 GENERAL SERVICES

- 2.1 The overall projected outturn for the year to 31 March 2011 is an uncommitted surplus of £3.352m. This will increase the General Fund Uncommitted balance to £12.031m at the year end. As previously indicated to Cabinet, there is the potential of up to 220 severances to be funded at an estimated cost of £8.8m. This will require a significant draw on the balances currently held.
- 2.2 The Council approved the 2011/12 Budget on 10 February 2010, which included a package of savings measures. Considerable progress has already been made this year in relation to achieving future years' savings through areas such as the management of vacant posts, business reviews, the efficiency strategy and specific management actions. While these actions will contribute to the savings targets required in future years, their early achievement has also allowed significant savings to be generated in 2010/11.

- 2.3 It is anticipated that the department of Educational and Social Services will outturn £1.084m under budget at 31 March 2011. Educational Services is anticipated to outturn £0.795m under budget which includes underspends in both teaching and ancillary staff costs, the deployment of probationers and efficiency savings within Onsite Services. In addition £0.709m of the favourable variance relates specifically to devolved school budgets. The variance has been partly offset by £0.453m additional Outwith Placements costs.
- 2.4 Social Services is anticipated to outturn £0.289m under budget with significant savings continuing to be made from the timing of recruitment to vacant posts. These are partly offset by pressures in respect of looked after children, legal costs, additional adult care placement costs and self-directed care costs. The variance includes non-recurring efficiency retiral costs and costs in relation to the ongoing re-design of Children and Families of £1.576m which have been offset against budgeted provision for the service re-design and delays in the filling of vacant posts in all service areas.
- 2.5 The Executive Director of Neighbourhood Services anticipates a favourable variance of £1.415m mainly due to savings in employee costs and additional income from Roads and Transportation rechargeable work, partly offset by reduced Planning and Building Standards income. £0.533m is required to be earmarked at year end in respect of Planning and Economic Development initiatives, in addition to the £0.250m previously agreed by Cabinet for the additional salt storage facility. The Executive Director also proposes that the remaining £0.180m underspend within the Roads Service is earmarked specifically to increase the winter maintenance contingency balance already held of £0.747m. This would reduce the Neighbourhood Services variance to £0.452m under budget.

- 2.6 The Executive Director of Finance and Corporate Support anticipates a favourable variance of £0.594m at 31 March 2011 predominantly arising from employee cost savings and premises costs savings arising largely from a reduced level of completed central repairs due to the rate at which the new contractor can undertake repairs. Additional severance costs throughout the department and shortfalls in income partly offset the variance.
- 2.7 Central Services is anticipated to be £3.870m under budget. The variance includes £0.943m transferred from departmental budgets in respect of the Efficiency Strategy (SRRB2) as well as £0.344m in respect of the revised Local Government Employees pay inflation. These savings are recurring and will deliver future years' budget savings. Savings are also anticipated in year on one-off VAT reclaims, centrally held funding for Zero Waste Fund and Carbon Reduction Commitment. The costs of decanting pupils from Gargieston are estimated at £0.267m and partly offset the overall variance.
- 2.8 Debt charges are anticipated to be under budget by £0.600m partly due to the profiling of the capital programme, a favourable cash flow position and additional investment income in the year.
- 2.9 There is a favourable variance in respect of Housing and Council Tax Benefit income of £0.402m due to the effective overpayment recovery process.

3 HOUSING REVENUE ACCOUNT (HRA)

- 3.1 The Housing Revenue Account is expected to outturn £0.453m under budget at 31 March 2011.
- 3.2 Live jobs have reduced from 13,422 at period 10 to 11,137 at period 11. A short term specific programme using additional temporary craft operatives will allow existing housing improvement and response repairs to continue while addressing outstanding gutter repairs, chimney removals, builder work, plasterer work and roughcast repairs.
- 3.3 The report to Cabinet on 24 February 2010 recognised that budgets not utilised by internal provision would be used to outsource work for which there was no in-house capacity available. The Head of Housing is in the process of agreeing work with the new contractor to further alleviate tenant demand and address preventative maintenance.

4 CAPITAL PROGRAMME

- 4.1 The projected expenditure on the Council's capital programme is anticipated to be £47.266m, further analysis is shown in the Capital Summary shown on Page 6. This is broadly in line with the estimated position following reprofiling adjustments approved at Cabinet on 19 September 2010.

5 GENERAL FUND UNCOMMITTED BALANCE

- 5.1 The Financial Reserves Strategy sets the level of the Uncommitted General Fund Balance at between 2% and 4% of Annual Budgeted Expenditure. During the current financial year commitments of £0.308m have been approved by Council and Cabinet and have reduced the balance to £8.679m. Including the forecast surplus for the year, this will increase to £12.032m which equates to 3.6% of the annual budgeted expenditure for 2010/11.
- 5.2 As outlined in paragraph 2.1, the 2011/12 draft budget proposals indicate the potential for a significant one-off cost associated with severance packages. This would have a significant impact on the balances currently held, reducing the level of uncommitted balance to around 1% of annual budgeted expenditure.

6 RECOMMENDATIONS

- 6.1 It is recommended that Members:
- (i) Approve Neighbourhood Services earmarked balances as noted at paragraph 2.5;
 - (ii) note the contents of this report.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

EDUCATIONAL AND SOCIAL SERVICES

SERVICE SUMMARY

It is anticipated that Education and Social Services will outturn £1.084m under budget.

The current projected outturn position for Educational Services is an underspend of £0.795m, with the major variances relating to underspends of £1.108m in both teaching and ancillary staff costs, the deployment of probationers and efficiency and absence cover savings within Onsite Services which has been partly offset by a projected overspend of £0.453m relating to Outwith Placements

The projected outturn variance within Social Work is an underspend of £0.289m and is after utilisation of 2010/11 projected budget sustainability savings from the ongoing eligibility review of care at home services £0.965m and adult care services £1.000m. In addition, the review of administrative and support services has now been finalised and has generated a full year recurring cost reduction of £0.388m. As in previous financial years, significant savings from recruitment are contributing to the current projection. Work is ongoing in conjunction with service managers to prioritise the filling of vacant posts in order to ensure that operational objectives can continue to be met within an overall balanced budget

	Estimate £m	Projection to 31 Mar 11 £m	Variance (Favourable) / Adverse

EXPENDITURE REDUCTION TARGETS

Following extensive public consultation the Council approved a number of expenditure reduction measures which will produce savings from the department's controllable revenue expenditure of £3.187m in 2010/11. The reductions relating to the school academic year have not yet come into effect:

ACTIONS	Theme	SAVING £m	Status at 6/2/11	Achieved at 6/2/11 £m
Educational and Social Services		3.187		2.017
Reduce the number of external foster placements	AMW	0.185		-
Review cleaning hours in line with productivity improvements	AMW	0.020		0.020
Review roles of caretakers and cleaners in Social Work facilities	AMW	0.015		0.015
Restructure Joint Ayrshire Technician Service staffing levels	AMW	0.025		-
Reduce Schools Staffing Flexibility budget	AMW	0.050		-
Reduce HQ school absence cover budget	AMW	0.030		(0.130)
Reduce janitorial costs arising from revised standard hours	AMW	0.020		0.020
Review roles of cleaners and supervisors in Community Centres	AMW	0.030		0.030
Remove Study Support for GOALS funding	AMW	0.030		0.030
Efficiency measures and productivity review of schools catering	BRS	0.174		0.174
Rationalise training provision	BWP	0.023		0.023
Introduce Teacher Refresh Scheme 2	BWP	0.320		0.320
Reduce catering fixed costs	BWP	0.050		0.050
Reduce cleaning fixed costs	BWP	0.050		0.050
Reduce Special Education promoted posts held centrally	BWP	0.054		0.032
Reduce curricular support staff	BWP	0.080		0.041
Increased income from adult / teacher meals in schools	CFS	0.007		0.007
Increase price of school meals	CFS	0.090		0.035
Remove payment holiday for Community Care services	CFS	0.020		0.020
Remove subsidy from Meals on Wheels	CFS	0.030		0.030

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

EDUCATIONAL AND SOCIAL SERVICES

PERFORMANCE MEASURES

Absence for January 2011 was 6.22%, an increase on previous months and above the Council target of 4%. Within the Department, short term absences accounted for 2.44% and long term absences 1.58%. Long term absences reduced from the previous 3% last month. The top three reasons for absence were Stress/Debility (22.00%); Operations/Recovery/Treatment (18.00% and Musculo/Skeletal (14.90%).

Absence continues to be monitored monthly on a service by service basis through Executive Director and Head of Service one to ones and through the Departmental Management Team and includes reviewing levels of absence, reasons for absence, completion of absence review meetings and referrals

Attendance for the month of January was 93.1% ranging from 90.7% in secondary schools to 95.1% in primary schools. Bearing in mind the severe weather conditions in January this is a commendable level of pupil attendance.

Schools must remain vigilant in monitoring attendance in partnership with parents/carers.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

EDUCATIONAL AND SOCIAL SERVICES

Exclusions: Number of exclusion incidents.

While both the total number of exclusions, at 103, is the second highest in the last five years and the exclusion rate per 1000 pupils, at 6.3, is also the second highest in the last five years, the total number of openings lost, at 446, and openings lost per 1000 pupils, at 27.5, are both the second lowest in the last five years. Therefore, while exclusions have increased, the length of exclusions has dropped significantly.

The month of January has shown a rise in the number of incidents of exclusions but a reduction in the length of the exclusions. Schools should continue in this trend of smaller lengths of exclusion but redouble their efforts to reduce the number of incidents to levels at or below those of previous years for the same time period of reporting.

Child Supervision: Percentage of children seen by their supervising officer within 15 days.

Although the number of supervision requests has increased, performance remains consistent at 100%. This sustained high performance is due to the good practice adopted by social workers following the conclusion of each Children's Hearing, when Supervision Orders are implemented immediately.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

EDUCATIONAL AND SOCIAL SERVICES

SCRA Reports: Percentage of reports submitted to SCRA by the due date.

The December figures have been adjusted to take into account a number of discrepancies in December's SCRA data and now stand at 84%. The January figures shown are directly from SCRA and may be subject to revision.

Criminal Justice: Percentage of reports submitted to the courts by the due date.

Continued 100% delivery of reports to the courts by the due date in Period 11 has been achieved through regular performance monitoring by team managers, resulting in a 4.7% improvement, in performance terms, compared to the same period in 2009/10.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

EDUCATIONAL AND SOCIAL SERVICES

Homecare has been remodelled to become a re-ablement service with the emphasis on flexible support which is focussed on tasks and outcomes for service users. There has been an increase in the proportion of service users receiving care at weekends.

EDUCATIONAL AND SOCIAL SERVICES

SERVICE PERFORMANCE TO DATE

RESOURCES

The adverse Employee Costs variance results from budgeted staff turnover savings which are unlikely to be achieved, partly offset by employee cost savings in the Technician service. A favourable variance on Premises Costs has resulted from lower than anticipated NDR expenditure following the revaluation exercise. Within Supplies & Services anticipated underspends on professional fees and SEEMIS charges are partly offset by Directorate hospitality charges. The Third Party Payments variance has resulted from an over recovery in claims against the PPP contractor and reduced legal fees partly offset by the cost of the assessment for the Cumnock Head Teacher post and. Additional income has been received from the PPP contractor as a contribution to malicious damage and from the recovery of salary costs relating to a secondment.

	Estimate £m	Projection to 31 Mar 11 £m	Variance (Favourable) / Adverse

PPP / BUILDING LEARNING COMMUNITIES

Additional PPP Unitary Charges are anticipated relating to the payment of retentions and charges arising from construction change notices. The variance will be funded from centrally held balances which have been held to fund PPP Unitary Charges.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

EDUCATIONAL AND SOCIAL SERVICES

SCHOOLS

Anticipated favourable variances arising from the deployment of Probationers and reduced teaching and ancillary staffing costs within both primary and secondary schools are partly offset by an anticipated overspend in HQ cover to schools and additional costs arising from delays in achieving the planned staffing cuts within Quality Improvement. School carry forwards from 2009/10 will not now be drawn from balances resulting in overspends in devolved Supplies and Services expenditure partly offset by reduced expenditure in Quality Improvement. Additional third party payments, including Outdoor Learning costs, have been partly offset by additional income while there is a small anticipated under recovery of income relating to Music Tuition charges. The favourable variance of £0.871m can be broken down as £0.709m devolved budgets and £0.162m non devolved budgets.

	Estimate £m	Projection to 31 Mar 11 £m	Variance (Favourable) / Adverse
Employee Costs	58.656	57.656	(1.000)

Variance attributable to Non Devolved Budgets			(0.162)

FTE STAFFING ANALYSIS

Budget	Actual to date
1,476.9	1,472.3

COMMUNITY SUPPORT

Anticipated Employee Cost savings arise from vacancies and reduced expenditure on centrally held budgets and devolved teaching and non teaching staff. Reduced Supplies and Services expenditure relates mainly to expenditure on Literacies Partnerships, following the receipt of grants, and lower than anticipated expenditure on Learning Communities. The variance on Third Party Payments includes a projected overspend of £0.453m on Outwith Placements following the Prioritisation Group meeting on 15 February partly offset by anticipated underpends in payments to Day Carers and Partnerships.

	Estimate £m	Projection to 31 Mar 11 £m	Variance (Favourable) / Adverse
Employee Costs	16.657	16.422	(0.235)

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

EDUCATIONAL AND SOCIAL SERVICES

FACILITIES MANAGEMENT

The Employee Costs variance is due to efficiencies and absence cover savings within Onsite Services partly offset by severance costs, disclosure fees and additional staff costs of £0.088m due to the Gargieston Primary School decant. The transport section anticipates an overspend on the SEN contracts of £0.099m offset by an anticipated underspend of £0.170m on SPT payments. There is currently a projected shortfall in School Meal, canteen, lunch club and vending income of £0.105m.

FTE STAFFING ANALYSIS

Budget	Actual to date
498.4	494.8

SOCIAL WORK

This projected outturn variance is after utilisation of 2010/11 projected budget sustainability savings from the ongoing eligibility review of care at home services of £0.965m and adult care services £1.000m. In addition, the review of administrative and support services has now been finalised and has generated a full year recurring cost reduction of £0.388m. As in previous financial years, significant savings from recruiting candidates into vacant posts are contributing to the favourable projected variance. There are a number of significant budget pressures within the service. Within Children and Families, there are presently 51 children within external foster care placements resulting in a projected overspend of £0.119m with a further provision of £0.016m for additional places to 31 March 2011. This is offset by £0.149m of reduced Kinship Care costs and reduced internal foster care placements of £0.080m. Additional legal fees for contested adoption cases are anticipated at £0.060m. Within Community Care, additional adult care placement costs of £0.333m plus provision for £0.049m additional placements are projected. The projections for residential and nursing placements and care at home services include provisions for additional costs of £0.027m and £0.120m respectively for unavoidable additional pressures over the winter period.

EDUCATIONAL AND SOCIAL SERVICES

Service Enhancements 2010/11

Additional funding has been provided for the operation of a number of services:

- Re-design of the Children and Families Social Work service to improve outcomes for children;
- Introduction of free pre-school education to all children from their third birthday;
- Provision of free school meals for every child in Primary 1.

Strategic Review of the Revenue Budget

The Strategic Review of the Revenue Budget resulted in decisions to realign the Revenue Budget and invest additional resources in a number of areas including:

- The redesign and development of Social Work Infrastructure to meet increasing demands for services;
- Additional teachers for educational establishments in deprived areas;
- Increased resources for the placement of children and young people in specialist educational establishments outwith East Ayrshire.

This will result in net additional funding of £1.037m over the 4 years to 2011/12.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

NEIGHBOURHOOD SERVICES

SERVICE SUMMARY

The projected outturn to 31 March 2011 is a favourable variance of £1.415m. This is mainly due to anticipated savings within Central Management Support, Leisure Services, Waste Management, Emergency Planning, General Fund Housing, Roads & Transportation and Planning & Economic Development. This is partly offset by adverse variances within Strong, Safe and Attractive Communities and Community Safety and CCTV.

In particular the favourable variance reflects an employee cost saving of £0.562m due to the active management of vacancies within Neighbourhood Services.

It is anticipated that significant balances will require to be earmarked at 31 March 2011, particularly in relation to Planning & Economic Development and Roads & Transportation.

The Housing Revenue Account is expected to outturn £0.453m under budget at 31 March 2011.

	Estimate £m	Projection to 31 Mar 11 £m	Variance (Favourable) / Adverse

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

NEIGHBOURHOOD SERVICES

PERFORMANCE MEASURES

Absence for January 2011 was 6.15%, a decrease on previous months but still above the Council target of 4%. Within the Department, short term absences accounted for 2.68% and long term absences 3.47%. Both short term and long term absences reduced from the previous month. The top three reasons for absence were Stress/Debility (23.10%); Operations/Recovery/Treatment (22.00%) and Colds/Flu (12.50%).

Absence continues to be monitored monthly on a service by service basis through Executive Director and Head of Service one to ones and through the Departmental Management Team and includes reviewing levels of absence, reasons for absence, completion of absence review meetings and referrals.

This indicator is a trend measure of the number of people accessing leisure services through the range of facilities operated by leisure services. The indicator includes visits to museums, libraries, sports facilities and the country park. The cumulative attendance figures for January 2011 show a 36% decrease in attendance compared to the same reporting period in 2010, the expected result from a combination of bad weather conditions and seasonal inactivity.

Publicising the services and facilities on offer at all Council leisure facilities will continue, utilising a wide range of communication methods to inform the public of the services available.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

NEIGHBOURHOOD SERVICES

Planning Applications: Percentage of householder planning applications determined within two months.

Intervention level exceeded as was national SPI target of 90%. Furthermore the figure of 93.8% represents the third highest figure achieved for Householder applications over the last 9 years. It also reflects on the improved focus that has been achieved through the identification of a dedicated Performance / Delegated Principal Planning Officer.

Continue with current measures to maintain and if possible improve performance. Key in this will be maintenance of the current levels of workload monitoring by Principal Officers with a view to trawling as many as possible applications within the 2 month determination period

Planning Applications: Percentage of non-householder planning applications determined within two months.

Intervention level exceeded. Furthermore, since recording of non-householder applications commenced, the average figure has been 46.1% compared to the 58.3% for January 2011. It is worth noting that non-householder applications contain a wide range of application types such that the potential exists for more volatility in the performance level month on month.

Continue with current measures to maintain and if possible improve performance. In this regard, it is important to maintain current levels of workload monitoring by Principal Officers such that applications do not fall outwith the determination period by merely a few days. By this mechanism it should be possible to raise performance further.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

NEIGHBOURHOOD SERVICES

Housing Repairs: Percentage of first time fixes.

The first time fix performance as at P11 is down 1.2% at 93.5% compared to P10. Performance remains slightly below the target of 95%. This is attributed to normal seasonal fluctuations.

The Housing Asset Service will continue to review those jobs that have not been completed on the first visit to identify and address any underlying issues that could be having a detrimental effect on the first time fix rate. There will continue to be a number of jobs that require a second visit before a job is complete. An example of these jobs are where a glazier will attend to measure a window within a property, order the required material and then attend at a later date to complete the job.

Housing Lets: Percentage of re-lets within 4 weeks.

The overall percentage of properties re-let in 4 weeks has dipped since period 7 to a level lower than the 2009/10 year end reported performance of 36.8%. The cumulative re-let performance as a P11 is 32.8% compared to the 40% target set for 2010/11.

An analysis indicates that a further 43% of not low demand re-lets which missed the 4 week target were re-let within 5 weeks.

Additional work will be undertaken to return a significant proportion of the properties being re-let in 5 weeks to under the 4 week threshold.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

NEIGHBOURHOOD SERVICES

Homelessness: Number of people assessed as homeless or potentially homeless

The level of homeless assessments undertaken is affected by the level of presentations to the Housing Options Team. It should be noted that with all cases presenting as homeless / potentially homeless that there is a process time lag which makes a direct comparison on a period by period basis difficult. Cumulative presentations as at P11 2010/11 are 555, up 8% from 514 for the same period in 2009/10.

The average number of presentations at P11 2010/11 is 50 compared to 47 in 2009/10.

All clients identified as not being homeless at the time of presentation are provided with information to prevent homelessness.

Homelessness: Percentage of repeat homelessness within one year

This figure fluctuates throughout the year and can be affected disproportionately by a relatively small number of repeated homeless representations. The current cumulative repeat homeless rate at P11 is 6.5% compared to 9.9% in 2009/10. The current cumulative P11 performance is 2.5% below the 2010/11 target of 9%.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

NEIGHBOURHOOD SERVICES

Road Safety (Defects): Percentage of category 1 defects made safe within target.

The Service has introduced a new reporting system; performance figures will not be available until quarter 4.

Street Lighting: Percentage of repairs completed within 7 days.

From a total of 700 logged faults this reporting period, 686 were successfully completed within target time. The year to date performance output is currently 97.7%.

Performance information will continue to be routinely monitored and analysed for opportunities for improvement.

SERVICE PERFORMANCE TO DATE

CENTRAL MANAGEMENT SUPPORT

The Employee Costs Variance reflects maternity leave and savings on training and other employee related expenses. The favourable Supplies and Services variance reflects managed savings across a number of budgets.

FTE STAFFING ANALYSIS

Budget	Actual to date
7.0	6.6

LEISURE SERVICES

The Employee Costs variance is principally due to vacancies across Leisure Services and a reduced number of Street Cleansing Hit Squad operatives, partly offset by additional costs within verge clearance, Museums and a secondment within Leisure Development, the latter being offset by additional income. An adverse variance is anticipated in Premises Costs arising from additional utility costs at Games Halls and Outdoor Amenities. Within Supplies and Services there has been additional expenditure on the purchase of plant, equipment and materials, IT equipment and software. Additional expenditure on projects at Dean Castle Country Park and verge works has been partly offset by reduced expenditure on New Sporting Futures. The Income variance reflects additional income within cemeteries, Leisure Development, Museums, Palace Theatre and Street Cleansing and is partly offset by shortfalls in income within PPP schools, Golf, Libraries and Registration.

NEIGHBOURHOOD SERVICES

ROADS AND TRANSPORTATION

The adverse Employee Costs variance has resulted from increased overtime costs and reduced staff turnover. A favourable Transport Costs variance reflects lower mileage, vehicle hire and licence costs partly offset increased fuel and repairs and maintenance costs. Lower winter equipment costs have been offset by increased maintenance materials, street lighting electricity and consultancy costs. The adverse Third Party Payments variance reflects higher than estimated payments to external contractors recovered by increased Income. Additional income is anticipated from grants for roads repairs, rechargeable work undertaken by Transport Services, the recharge of Masternaut to other departments and increased car parking and rental income.

FTE STAFFING ANALYSIS

Budget	Actual to date
179.6	170.5

PLANNING AND ECONOMIC DEVELOPMENT

Vacancies continue to be held with a variance of £0.411m currently anticipated. Within Supplies and Services, projected adverse variances on Statutory Advertising costs, the Threepwood Public Local Inquiry costs and bad debt provision for Dangerous Buildings are partly offset by favourable variances on Leader's Initiatives / TCRF maintenance costs. Favourable Third Party Payments variances have resulted from the Scottish Enterprise regeneration budget transfer along with reduced expenditure on Dangerous Buildings and Match Funding. These are offset by an anticipated adverse variance in fee income, although this is projected to be higher than the 2009/10 outturn position, which is partly offset by increased income from Statutory Advertising, Dangerous Buildings and Skills Development Scotland Funding. Income continues to be affected by the economic downturn. Fluctuating income levels remain a challenge for the service and into future years. The department will require to earmark £0.443m in respect of Skills Development Scotland Income (£0.226m) and Scottish Enterprise funding (£0.217m).

NEIGHBOURHOOD SERVICES

GENERAL FUND HOUSING

The Employee Costs variance reflects vacancies and reduced overtime within Waste Management and General Fund Housing which are partly offset by additional overtime and special payments to staff at the Risk Management Centre together with redundancy costs for Community Wardens, reduced staff turnover and payments in lieu of notice.

The favourable Premises Costs variance reflects a reduction in the number of temporary accommodation properties partly offset by additional charges in respect of Western Road Depot.

Additional Transport Costs have arisen due to charges in respect of purchased vehicles and vehicle tracking costs, partly offset by reduced fuel, repairs and hire charges.

The Supplies and Services variance is due to reduced expenditure within Private Sector Housing Grants, removals and storage costs, furniture, mediation and diversionary activities and Community Safety network charges and is partly offset by the purchase of bins and containers.

Increased recycling activity has resulted in reduced landfill charges and increased income from recycling. This is partly offset by costs associated with the installation of automated public conveniences and depot security costs.

In addition, the increased recycling income partly offsets a reduction in the number of temporary accommodation properties, reduced commercial waste and ad hoc waste management income and reduced income from the sale of refuse sacks and uplift of white goods.

	Estimate £m	Projection to 31 Mar 11 £m	Variance (Favourable) / Adverse

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

NEIGHBOURHOOD SERVICES

HOUSING REVENUE ACCOUNT

The favourable variance is as a result of lower than budgeted expenditure in a number of areas including vacant posts, energy costs, accommodation costs, a later than anticipated start date for the housing register and lower than budgeted tenancy support recharges. In addition reduced provision for bad debts and an insurance settlement are partly offset by lower than budgeted income from rechargeable repairs and under recovered homeless rents.

Budget	Actual to date

HOUSING ASSET SERVICE

This service operates within the Housing Revenue Account. The adverse Employee Costs variance is due to increased bonus and overtime payments. Adverse Transport Costs variances reflect higher vehicle leasing and tracking costs. Higher levels of Direct Purchases have resulted in the adverse Supplies & Services variance. The adverse variances are offset by favourable Third Party Payment and Income variances resulting from anticipated slippage in subcontracted work, lower than anticipated landfill charges and higher recharges to the capital account.

PARTNERSHIPS AND PROJECTS

A number of projects are operated and funded from a variety of sources with some funding awarded in one financial year for use in that or subsequent years.

The balance on Leisure Projects relates to schemes including Positive Play, the Talented Athlete Programme, Streetsport Cages and Healthy Weight Community. These balances will be required to sustain the projects in future years.

Roads and Transport balances relate mainly to the Clyde Local Authority Consortium, A76 Crossroads, and the Scottish Coal Obligation Funds.

The Employability balance mainly relates solely to East Ayrshire Woodlands and the deficit is anticipated to be offset by secured income received by 31 March 2011. The Wind Farm balance represents income from CRE Energy committed to the Renewable Energy fund including the Whitelee Access Action Plan. Developer's Contributions balances are held for social, leisure and recreation facilities throughout the area in line with the requirements set out in the Local Plan. A review of these balances was submitted to Cabinet on 23 June 2010 addressing the usage of funds to support eligible projects within the capital programme. As a result all historic funds have been amalgamated into two funds reflecting the new Planning Committee areas. Make It Kilmarnock includes a reducing balance awarded from balances and Fairer Scotland/Challenge funding. The Moorfield Entrance Junction money is required to be held during the project retention period. East Ayrshire Town Centres is committed for town centre activities including Christmas events. The Design Workshop balance will be retained for expenditure on Cumnock shop front design guidance. The Cumnock Regeneration balance is held as a contingency. Cumnock and Kilmarnock Town Centre balances are held for planned activities, events and marketing to increase footfall through both town centres.

Service Enhancements 2010/11

Additional funding has been provided for the operation of a number of services experiencing increasing demands and costs including:

- Additional waste management services arising from new streets, houses and local facilities;
- Opening of new local facilities;
- Ongoing operating costs arising from Town Centre Regeneration and Leader's Initiatives;

Strategic Review of the Revenue Budget

The Strategic Review of the Revenue Budget resulted in decisions to increase burial charges nearer to the Scottish Average, reductions in the net costs of Waste Disposal and Street Cleansing and a move of funding for roads maintenance to capital to enable a more strategic approach to be implemented. This amounts to net additional savings of £0.450m over the 4 years to 2011/12.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

SERVICE SUMMARY

The department is currently projecting a favourable position of £0.594m. Savings are currently anticipated within Finance, Community Planning, Human Resource, Democratic Services and Legal, Procurement and Regulatory Services. Savings predominantly relate to employee and premises costs, compensating for pressures on income.

Throughout the department employee cost projections reflect anticipated expenditure on severance costs, as it moves to achieve future year savings. Further severances may occur before the year end within IT and Asset Management, potentially incurring costs of around £0.320m, however the service is still giving the matter further consideration.

Within the IT and Asset Management Service, contract negotiations with the new main repairs contractor have continued to impact heavily on projected expenditure on premises costs. A £0.500m under spend on repairs (excluding managed savings) is currently projected, however, note is made that while a full commitment of work is anticipated against the remainder of the budget, it is likely that there will be a significant underspend as a result of the requirement of the new contractor to review and finalise inherited work as well complete newly ordered work. The level of this financial underspend is not accurately quantifiable as it is subject to the capacity of the new contractor to review and complete work prior to the financial year end. The service has twice weekly negotiations with the contractor in order to progress jobs to financial completion. Any financial underspend as a result of timing issues would be earmarked at the year end in order to allow the finalisation of the work in the next financial year.

In addition to the above, premises cost projections within IT and Asset Management are subject to data limitations being experienced in relation to energy supplies. Current projections, primarily for Corporate Office facilities, do not anticipate a funding issue in relation to current year energy costs, however this may change as energy information becomes more robust.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

PERFORMANCE MEASURES

Absence for January 2011 was 4.02%, a decrease on previous months but still above the Council target of 4%. Within the Department, short term absences accounted for 2.4% and long term absences 1.6%. Long term absences reduced from the previous 3.2% last month. The top three reasons for absence were Stress/Debility (23.2%); Colds/Flu (19.10%) and Headache/Migraine (10.50%).

Absence continues to be monitored monthly on a service by service basis through Executive Director and Head of Service one to ones and through the Departmental Management Team and includes reviewing levels of absence, reasons for absence, completion of absence review meetings and referrals

The workload continues to increase and there are 2 vacancies and several absences due to sickness within the section.

Some overtime will be done during the next period to try to bring the work more up to date.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

Benefit Administration: Average time to process change events.

The workload continues to increase and there are 2 vacancies and several absences due to sickness within the section.

Some overtime will be done during the next period to try to bring the work more up to date.

Benefit Administration: Average time to process new benefit claims.

The workload continues to increase and there are 2 vacancies and several absences due to sickness within the section.

Some overtime will be done during the next period to try to bring the work more up to date.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

Council Tax: Percentage of Council Tax received.

We carry out regular reviews to ensure that the Council Tax data is accurate. All staff receive regular training and any training issues are raised and discussed at the Target Meetings. Comprehensive training material and procedural guides are available to all staff. This material is updated on a regular basis.

Invoices: Percentage paid within 30 calendar days of receipt.

Historically the worst period for payment performance due to the impact of the Christmas shutdown. P11 saw an improvement on 2009/10 with 71.54% within 30 days compared with 47.04% in 2009/10.

Continued monitoring and reporting of payment performance.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

Domestic Noise Complaints: Average time (hours) between complaint and site visit (Antisocial Behaviour Act)

The time taken to respond is governed by the geographic location of staff at time of complaint. This performance indicator is driven by the service requests received.

Average performance remains under 1 hour, however, average time taken and number of complaints will continue to be monitored.

Procurement: Monthly spend via PECOS.

Year To Date throughput of £20.1M compared to £10.76M at the same point last year.

Intranet pages are being reconfigured to provide increased information for staff (contracts, coverage, clarity on invoice processing). The top 3 volume suppliers (Lyreco, Arco, Spectrum Computer Supplies) are undergoing testing with invoicing capability assessment which, if successful, will assist in reducing the service administrative burden related to invoice processing and will assist in improving on time payment performance figures.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

The percentage of consumer complaints completed within 14 days was 81.6% for the month of January. This represents a drop in performance compared to the previous month, however, this can be explained by the Consumer Advisor taking annual leave during the month. Performance this year has improved to levels above the previous year despite a reduction in the staffing complement within the service, and has been above the performance target of 74% in all but one month. However, it is important to note that the reduction in staff has been accompanied by a reduction in the number of complaints received by the Service.

No actions are proposed at this time; however performance will continue to be monitored by management on a monthly basis, with particular regard paid to the number of complaints received and the current staffing situation.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

SERVICE PERFORMANCE TO DATE

CENTRAL MANAGEMENT SUPPORT

The Employee Costs variance results from one-off severance costs in relation to the redesign of the Internal Audit service.

FTE STAFFING ANALYSIS

Budget	Actual to date
2.0	2.0

FINANCE SERVICE

A favourable variance is currently anticipated as a result of the number of vacancies currently held throughout the service pending a review of the service operation. The favourable variances within Supplies and Services and Transport Costs are partly related to the delay in the transfer of staff from the Lugar Offices to Kilmarnock, with additional favourable variances anticipated in security services, general administration, computer services and tools and equipment. Additional funding from the Department for Work and Pensions has been received to assist with anticipated increased benefit claims during the economic downturn. Additional income is also expected from the collection of Scottish Water rates and payroll administration charges.

FINANCE AND CORPORATE SUPPORT

INFORMATION TECHNOLOGY AND ASSET MANAGEMENT

Additional Employee Costs resulting from temporary staff, agency staff and additional overtime costs are projected in order to assist with the accelerated capital programme and workload and staff cover within the repairs function. In addition one-off severance costs are anticipated across the service and are partly offset by vacancies.

The Premises Costs favourable variance is partly due to the timing of the occupancy of the new Strand Street office building generating anticipated savings on non-domestic rates, utilities and rental costs with further savings anticipated in relation to water charges and managed savings to offset an anticipated shortfall in property disposal income. The service recognises the ongoing situation regarding negotiations with a new main contractor for Central Repairs as a result of the previous contractor going in to Administration. It is anticipated that in the current year the expenditure on building repairs and maintenance spend will be lower than planned, currently at a projected level of at least £0.500m. It should be noted however that the level of underspend could significantly increase, depending on the rate at which repairs work is reviewed and progressed by the new contractor. A saving in relation to Surplus Property expenditure is also anticipated.

It is currently anticipated that operational requirements will result in an adverse position on supplies although this position continues to be reviewed. In addition, residual IT works in relation to London Road, for which balances have been set aside, are to be absorbed by savings achieved elsewhere within the department.

As in the previous year, the service anticipates the economic downturn to impact on property related income. A shortfall of £0.122m is currently expected in relation to rental income from the Burns Mall, with a shortfall in income from housing deed plans of £0.034m. The Asset Improvement service anticipates a £0.500m shortfall in fee recovery. The service continues to review the approach to fee recovery however it is anticipated that this under-recovery will be offset by the impact of the change in main contractor noted above.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

HUMAN RESOURCES

Savings due to turnover, non-filling of vacancies and recently approved work life balance arrangements have resulted in the projected favourable Employee Costs variance after allowing for £0.179m of severance costs. The Transport Costs variance is due to excess travel commitments arising from the relocation of staff within Organisational Development and Health and Safety. Within Supplies and Services pressures arising from subscriptions, Health and Safety mobile phone costs, printing cost for revised HR policy bulletins, postages and admin costs associated with the Harmonisation of Conditions of Service are partly offset by a saving of £0.020m, which has resulted from changing the Employee Recognition event to a biannual event, and savings of £0.030m in relation to the Occupational health contract. The variance within Third Party Payments is due to consultants' costs in respect of the Health and Safety compliance review as well as costs arising from the Physiotherapy Service which are offset by income recharges.

FTE STAFFING ANALYSIS

Budget	Actual to date
73.7	65.7

DEMOCRATIC SERVICES

A favourable Employee Costs variance is anticipated as a result of vacancies across the services and reduced training costs. Supplies and Services savings are anticipated from Publicity and Promotion, reduced Print Room costs, offset by reduced income, and Local Area Grants. A favourable variance is anticipated in relation to the Electoral Development Process, although there may be a need to earmark for costs to be incurred in the next financial year. An adverse variance in property certificates income based on the 2009/10 outturn position is currently anticipated together with a reduction in sponsorship income, this shortfall is covered from savings elsewhere in the service and is partly offset by additional fees and charges relating to Children's Panel Legal Expenses.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

FINANCE AND CORPORATE SUPPORT

LEGAL, PROCUREMENT AND REGULATORY

Employee Costs savings from vacancies, work life balance arrangements across the service and the recharge of staff time to Tobacco Sales Enforcement are absorbed by anticipated one-off severance costs of £0.177m. A favourable Transport Costs variance is anticipated from the use of leased vehicles and reduced mileage allowance claims. Licensing Board costs are offset by the recovery of income and there are lower than anticipated Chemist charges resulting from lower than budgeted sample requirements. An anticipated shortfall in Pest Destruction income is offset by anticipated Fixed Penalty and other miscellaneous income.

FTE STAFFING ANALYSIS

Budget	Actual to date
84.0	79.2

COMMUNITY PLANNING AND PARTNERSHIP

The favourable Employee Costs variance relates to vacancies and work life balance arrangements. The Third Party Payments variance represents the Challenge Fund which is unlikely to be allocated before the year end. Additional Income has been generated from supporting the CPP in administering and monitoring the Fairer Scotland Fund.

FINANCE AND CORPORATE SUPPORT

Service Enhancements 2010/11

Additional funding has been provided for the operation of a number of services experiencing increasing demands and costs including:

- Reduced property rental income;
- Reduced income from the disposal of properties;
- Operating costs of the new Strand Street office development;

Strategic Review of the Revenue Budget

The Strategic Review of the Revenue Budget resulted in decisions to redirect resources away from support functions to frontline services with proportionate expenditure reductions across Finance and Corporate Support. This amounts to additional savings of £0.587m over the 4 years to 2011/12.

2010/2011 FINANCE AND SERVICE STRATEGY REPORT BASED ON PERIOD 11 (6 FEBRUARY 2011)

CENTRAL SERVICES

SERVICE SUMMARY

Central Services is anticipated to outturn £3.870m under budget as a result of staff savings within the Internal Audit Service, successful reclaims of VAT and in-year savings generated by the Line by Line Review of departmental expenditure and the realignment of departmental budgets following the 0.65% pay award. These savings are partly offset by additional costs of £0.267m in respect of the transport and associated decant costs relating to Gargieston Primary School.

£1.428m has been received for Schools PPP support. While it is not anticipated that this will be utilised in 2010/11, in line with previous practice the funding is required to be earmarked and retained centrally to fund PPP Unitary Charges in future years. In addition £0.075m will be required to be earmarked as match funding for employability projects managed by Neighbourhood Services.

EDUCATIONAL AND SOCIAL SERVICES

Capital Programme

Expenditure to date is £4.503m, which represents 64.1% of the available budget. The Projected Expenditure for 2010/11 is £6.874m.

The projected underspend on the Education and Social Services capital programme primarily relates to a number of schemes which are anticipated to be less than originally budgeted or are forecast to slip into future financial years.

Revised estimates would indicate that costs are approximately 20% under budget.

Project Life Cycle

Works on site are progressing well and building will be wind and water tight shortly. There were some delays on site due to inclement weather, however, it is currently anticipated that this can be absorbed within the contractual timescales.

CAPITAL PROGRAMME UPDATE – 17 FEBRUARY 2011

EDUCATIONAL AND SOCIAL SERVICES – MAJOR PROJECTS

General Projects

There are a number of minor projects which are due to start and finish within the current financial year:-

Fabric Upgrades and Refurbishments

The underspend primarily relates to a number of schemes which are anticipated to slip in terms of progress and will now be completed in 2011/12.

Projects

Costs of approximately £0.086m and £0.008m in relation to the new Galston Primary School and Netherthird Community Centre respectively are anticipated to be incurred during the 2010/11 financial year.

Elderly Day Care Facilities

The costs in relation to the Stewarton Townhouse project are anticipated to be approximately £0.077m more than the available budget, however, most of the allocation of £0.100m for Rosebank which is unlikely to be required.

	Revised Budget 2010/11	Actual Expenditure to Date	Projected Expenditure 2010/11	Variance
Fabric Upgrades & Refurbishments	3.479	2.065	2.728	(0.751)

TOTAL EDUCATION & SOCIAL SERVICES	4.272	2.379	3.597	(0.675)

NEIGHBOURHOOD SERVICES

Capital Programme

Expenditure to date is £11.282m, which represents 47.2% of the available budget.
The projected expenditure for 2010/11 is £22.540m.

The variance primarily relates to a number of schemes which are anticipated to be less than originally budgeted or are forecast to slip into future financial years.

Project Life Cycle

Works have been delayed due to issues with the delivery of materials. Anticipated completion revised to end March 2011.

FINANCE AND SERVICE STRATEGY REPORT TO PERIOD 11 (6 FEBRUARY 2011)

NEIGHBOURHOOD SERVICES

General Projects

There are a number of minor projects due to start and finish within 2010/11.

Strategic Priorities

The anticipated overspend relates to the match funding for the additional works at the Baird Institute to be funded from CARS / THI grant.

Facility Improvement

Works relating to the refurbishment of the Dalmellington and Bellsbank Library are currently on hold. This is partially offset by small overspends in the Newmilns Library and Core Paths projects.

Cemetery Extensions

Work at Cumnock, Kilmaurs and New Cumnock cemeteries are anticipated to overspend by approximately £0.028m.

Traffic and Road Safety

There is projected slippage in respect of Strategic Route Improvements (£0.315m), Stewarton Park & Ride (£0.600m), A70/71 Route Improvements (£0.143m), 20mph School Zones (£0.020m), Disabled Access (£0.010m) and the spend to save Decriminalisation of Parking Enforcement (£0.227m) projects respectively.

Structures

Slippage is anticipated in respect of the Bridge Strengthening Programme.

Flood Prevention Schemes

There is some slippage anticipated in respect of the Flood Mitigation measures.

Sheltered Housing Safety & Improvement	0.758	0.557	0.681	(0.077)
Total Housing Expenditure	12.574	9.129	13.814	1.240

Asbestos

Full spend anticipated.

Energy Efficiency

The number of window replacements has increased.

Efficient Heating

Moderate overspend anticipated in respect of central heating contracts.

External Envelope Enhancement

Underspend anticipated in respect of roofing due to delays with common owners.

Modern Facilities & Services

Overspend anticipated in respect of 2009/10 carried forward contracts.

Neighbourhood Improvements

Increased number of timber clad housing and demolitions.

Safe & Secure Neighbourhood

Slippage anticipated in respect of door entry due to issues with common owners.

Sheltered Housing Safety & Improvement

Underspend anticipated in respect of St Maur's Gardens.

1.000	0.022	1.000	 Expected Progress							
			 Actual Progress							

Financial Status

Budget is based on assumed £0.100m to construct each unit with a maximum grant of £0.030m per house.

Project Life Cycle

Project is to construct 10 new houses on sites at Newlands Drive, Kilmarnock.

Capital Programme

Expenditure to date is £3.619m, which represents 118.3% of the available budget. The projected expenditure for 2010/11 is £4.038m.

The projected variance on the Finance & Corporate Support capital programme primarily relates to the vehicles and equipment that will be purchased rather than leased following an option appraisal exercise, partially offset by anticipated underspends in Corporate Office Accommodation and Health & Safety.

FINANCE AND SERVICE STRATEGY REPORT TO PERIOD 11 (6 FEBRUARY 2011)

FINANCE & CORPORATE SUPPORT

Major Projects

Council Chambers/Data Centre/London Road HQ

Budget Allocation £m	Expenditure to Date £m	Forecast Expenditure £m
3.900	3.648	3.950

Financial Status

The budget has been consolidated with allocations from Data Centre, HQ Roof, Health & Safety and Corporate Office budgets.

Project Life Cycle

Works to the canteen are nearing completion as programmed. Works to transfer over the Data Centre has now been deferred until Easter 2011 due to concerns about the risks associated with the current spell of inclement weather. This delay will result in additional costs of £0.050m. Remainder of works on-going and are programmed for completion by end of March 2011.
