

EAST AYRSHIRE COUNCIL

GOVERNANCE AND SCRUTINY COMMITTEE - 20 NOVEMBER 2009

SWIA PERFORMANCE INSPECTION ACTION PLAN

Report by Director of Educational and Social Services

1. PURPOSE OF REPORT

- 1.1 To provide Governance and Scrutiny Committee an action plan prepared in response to the Social Work Inspection Agency (SWIA) Performance Inspection of Social Work Services.

2. BACKGROUND

- 2.1 In 2008, SWIA carried out a Performance Inspection of Social Work Services in East Ayrshire. The primary purpose of SWIA Performance Inspections is to provide independent assurance that services are well managed, safe and fit for purpose. The inspection of services in East Ayrshire was undertaken as part of a planned programme of performance inspections of all 32 Councils in Scotland.
- 2.2 The Inspection report was published in June 2009 and contained 15 recommendations where improvement was required.

3. THE INSPECTION

- 3.1 The inspection looked at how Social Work services were organised and delivered within East Ayrshire. An extensive self evaluation was submitted. Inspectors read a wide selection of material about the local authority and the social work services it provided or commissioned. Questionnaires were issued to staff, service users, carers and stakeholders. An audit of case files based on a comprehensive sample across the service was undertaken. A two week fieldwork phase was undertaken during which the Inspection Team was based within the Council. During this period Inspectors spoke to service users, their carers and people who were responsible for delivering or arranging services. They met with representatives from a range of organisations and groups as well as elected members and other stakeholders. In addition they also visited locations from where Social Work services were provided.
- 3.2 SWIA utilises a 10 point Performance Inspection Model (PIM) in conjunction with a 6 point evaluation scale. The PIM and East Ayrshire's performance in relation to each of the areas for evaluation is detailed below:

Outcomes for people who use services	Adequate
Impact on people who use our services	Good
Impact on staff	Adequate
Impact on the community	Very Good
Delivery of key processes	Adequate
Policy and service development, planning and performance management	Good

Management and support of staff	Adequate
Resources and capacity building	Good
Leadership and direction	Adequate
Capacity for improvement	Good

- 3.3 The inspectors found that the majority of people who responded to the surveys or who they met during the fieldwork phase agreed that the services they received were reliable and of good quality. People were positive about the difference these services had made to their lives.
- 3.4 The inspectors found a number of examples of good practice, including creative involvement of services users in service development. They praised our achievements in working towards a shift in the balance of care from institutionally based to community based care. They commented on the good joint working arrangements in place across a number of services and care groups. Partnership working with health was considered a key strength. Good progress on performance management and service improvement through best value reviews were highlighted.
- 3.5 The inspection also highlighted areas where improvement was required including the educational attainment of looked after children, pathway planning processes, access to employment, further education and providing suitable accommodation for young people leaving care. Action was required in ensuring that the national standards for mental health services are monitored and reviewed, and in ensuring that performance is improved in undertaking carer assessments. Further improvement was also required in relation to the quality of assessments in permanency planning, adoption and fostering work.
- 3.6 SWIA acknowledged the challenge facing social work in East Ayrshire in sustaining levels of services within available resources and in the face of increasing pressures and demand and acknowledged the council's activity in trying to tackle this issue through the Review of Social Work Sustainability
- 3.7 Overall the inspection concluded that although Social Work services will continue to face challenges in relation to capacity issues, the strong commitment to partnership working and the positive regard with which Social Work is held within the council and by external agencies indicated that there was optimism that the present momentum for continued improvement would be sustained.

4. THE PERFORMANCE INSPECTION ACTION PLAN

- 4.1 The Council is required to develop an action plan setting out how it will tackle the recommendations set out in the report. The action plan requires to be agreed with SWIA who will subsequently our review progress in a follow up inspection in summer 2010.
- 4.2 Work has been led by the Head of Service Community Care and the Head of Service Children and Families and Criminal Justice in conjunction with the senior management team within Social Work to develop an action plan which

responds constructively and appropriately to the recommendations. This has been agreed with SWIA subject to approval by elected members.

4.3 A copy of the action plan is attached. Key areas include:

- Improved Performance Reporting with an increased focus on Outcomes for people who use services
- Improved support to carers including focused work through the carers action plan
- Improved Communication within and about the function of the service
- Improvement in workload management arrangements and associated time intervals for service
- Improvement in key processes including assessment and care plans.
- Promotion of leadership and continuous professional development at all levels across the service

5. FUTURE INSPECTION ACTIVITY

5.1 Further to the Crerar Review of Scrutiny arrangements, SWIA is being merged with the Care Commission and the element of HMIE which is responsible for inspection of child protection arrangements. Work is being undertaken within the new shadow organisation the Social Care and Social Work Improvement Service (SCSWIS) to develop a new proportionate approach to inspection. This means that there will not be another round of full performance inspections, but a greater focus on promoting improvement through greater partnership working and an increased reliance on self evaluation.

6. FUTURE SELF EVALUATION ACTIVITY

6.1 A key component of the inspection process was the Self Evaluation Questionnaire (SEQ) which was submitted to SWIA in advance of the fieldwork phase utilising the PIM framework. As noted in 5.1 above future inspection arrangements will place greater reliance upon self evaluation.

6.2 East Ayrshire's corporate approach to self evaluation is centred upon the EFQM model. Within the SWIA Performance Inspection Report, Social Work's use of the model was highlighted as a good practice example.

6.3 The Performance Inspection model (PIM) is derived from EFQM. As part of its preparations for proportionate inspection SWIA has developed the PIM from a performance inspection tool into a performance improvement tool. A SWIA Guide to Supported Self Evaluation was published in January 2009 and includes a diagram mapping the areas for evaluation to EFQM. An electronic tool is under development. To support our approach to improvement in conjunction with SWIA Cabinet of 21 October 2009 agreed that from 2009/10 Social Work utilises this model rather than the standard EFQM model. This parallels arrangements within Educational Services where the QMIE model (also derived from EFQM) is utilised.

7. FINANCIAL IMPLICATIONS

- 7.1 The action plan includes note of the substantial commitment of the council in supporting the service through the social work sustainability programme.

8. PERSONNEL IMPLICATIONS

- 8.1 Elements of the action plan support the commitment of the Council in recruiting and retaining a confident and competent Social Work workforce.

9. POLICY/LEGAL IMPLICATIONS

- 9.1 The inspection action plan has been considered and agreed by the Cabinet and the Corporate Management Team. There are no specific policy implications.

10. COMMUNITY PLANNING IMPLICATIONS

- 10.1 Social Work plays a significant role in the delivery of community planning objectives. The actions detailed in the action plan will further strengthen Social Work's contribution in particular to the "Improving Health and Wellbeing" and "Promoting Community Safety" themes.

11. RISK MANAGEMENT

- 11.1 Effective Social Work services across functions contribute to the management of risk, for individuals, communities and the Council.

12. RECOMMENDATIONS

- 12.1 It is recommended that Governance and Scrutiny Committee:
- (i) note the action plan;
 - (ii) agree to accept regular progress reports on the action plan;
 - (iii) note the use of the SWIA Guide to Self Evaluation from 2009/2010; and
 - (iv) otherwise note the contents of the report
