Subject: RE: PLAN FOR REDGATE
Attachments: two entrance proposal.pdf

Jennifer,

Thank you for forwarding a copy of the information which I have looked over.

It would appear from the information that the roads department do not have any major concerns regarding the alternative entrance proposals as the sightlines required can be met. I would therefore advise that we are happy with their response and have enclosed a sketch proposal for how two entrances to the site would be achieved which the committee can review if required.

We look forward to hearing from you when a site visit has been arranged.

Please note that to allow the council to visualize the proposals we have previously installed scaffolding on site representing the mass of the proposals. Unfortunately, during the recent high winds it has been damaged and so we would like to repair prior to a site visit. If you could possibly give a few days notice then this would allow us to make good and allow the committee members to see the scale of the proposals more accurately when out on site.

Thanks for your help.

Regards,
