London Road
Kilmarnock
Application ref: LRB 10/0689/PP

Dear Sir/Madam

Further to your letter with regards to the shop at 65 High Street Stewarton applying for a change of use to a fast food take away.

My objections to this application are the same as of previous applications for this shop.

My main concerns are smell coming into my property from the shop and I have been assured by people who live above such premises and people who own this type of take away that you cannot get rid of the smell no matter what filter system is used.

As stated in my previous objections I also have a rights to peace and quiet, this shop is open from 6am to 10pm daily, previously it opened from 7am to 6pm. Deliveries to this shop can start as early as 2am. If granted planning the shop would now be open till 11.30pm with all the relevant noise from both members of the public and cars parking to use the shop, this could also cause a danger with cars parking in Springwell street and at the junction to High street. This is not a commercial centre of Stewarton. I would also like to know why this application is even going to review after been refused not once but twice before.

Sincerely,

A.Mckie
