Dear Sirs,

In the month of June 2011 I wrote to East Ayrshire Council, on the receipt of a letter from the Council, notifying me of the Planning Application ,REFERENCE NUMBER 11/0417/PP by Mr Campbell Douglas ,who had submitted an application to erect a garage within the boundaries of his property. Unfortunately this letter does not appear to have arrived with you.

In my letter I expressed my approval of this application being granted on the grounds that as Mr Douglas had spent a great deal of time and money in restoring the property to it's former condition thus enhancing this area of McLelland Drive.

The major advantage however was that the erection of this garage would have the desired and much needed effect of creating two additional roadside parking spaces which are desperately needed in McLelland Drive, as this has become a very hazardous road owing to the ever increasing traffic volumes, combined with the acute shortage of roadside parking space, of which you are no doubt aware. It is my earnest hope that you will take these observations into consideration during your deliberations.

Yours faithfully,

T.P.Marshall
