Report by Executive Director of Educational and Social Services

- 1.1 To advise the Local Committee of the publication of the annual Standards and Quality Report for Community Learning and Development covering 2005.

2. BACKGROUND

- 2.1 At the meeting on 24 May 2005, the Education Committee gave approval to a new format of Standards and Quality Report. This report, for the first time covered all aspects of the work of the Department of Educational & Social Services, reflecting its multi-disciplinary nature and the increasing emphasis on integrated service delivery. It was presented in a folder, with separate booklets representing the different aspects of work. This format proved to be highly successful, and attracted substantial amounts of national interest.
- 2.2 These individual reports are concise, readable and contain a wealth of factual information. They will be of interest to workers within the services of the department and to their colleagues. Most importantly, there is information that will be of interest to particular service users and the local community. Individually, and as a whole, they describe the considerable achievements within the Educational and Social Services Department. They provide an opportunity to celebrate success.
