

EAST AYRSHIRE COUNCIL

NORTHERN AREA LOCAL PLANNING COMMITTEE: 20 JANUARY 2006

**05/0781/FL: PROPOSED TEMPORARY CONSENT (5 YEARS) FOR
LOCATION OF TWO CARAVANS AND TIMBER LINKING CORRIDOR, AND
INSTALLATION OF SEPTIC TANK AND SOAKAWAY AND TIMBER HUT
ACCOMMODATION TO ENABLE ESTABLISHMENT OF ON-SITE LIVERY
BUSINESS AND ORGANIC CHICKEN EGG PRODUCTION UNIT
AT HIGH BOWHILL FARM, NEWMILNS
BY MR V AND MRS E COX**

EXECUTIVE SUMMARY SHEET

1. DEVELOPMENT DESCRIPTION

1.1 Full planning consent is sought in part in retrospect for the temporary (five year) siting of two caravans with a timber corridor to provide a physical link between the two and the installation of a septic tank, soakaway and timber hut. The accommodation is sought to enable the applicants to establish a livery business and organic chicken egg production unit on site. The two caravans, hut and corridor are already on site, and the applicant has been advised that a further application will be required for the siting of a hen shed, required for the proposed business. The caravans are proposed for the applicants and their family; the linking corridor is to permit sheltered access, and this demonstrates that the caravans would function as one, single residential unit. There is an existing outdoor horse arena, which will be used in connection with the livery business. The existing buildings on site will be used as stables and storage for the livery business.

1.2 In support of the application, the applicants have submitted a SAC labour justification, to demonstrate that a labour unit will be required once the business has been established and there are a total of 6000 hens on site (from a starting number of 2000). The stables are intended to accommodate 7 horses. The justification confirms that the proposal will not involve the loss of any prime agricultural land, and that it is essential to have a permanent presence on site to tend to livestock.

2. RECOMMENDATION

2.1 It is recommended that the application for planning permission be approved subject to the conditions listed on the attached sheet but that permission not be issued until the Solicitor to the Council has concluded a

formal Agreement with the applicants under Section 75 of the Town and Country Planning (Scotland) Act 1997 in respect of the points raised in paragraph 7.1 of the report.

3. CONCLUSIONS

3.1 As indicated in Section 5 of the report, this application is considered consistent with the Development Plan. Therefore the application should be approved unless material considerations indicate otherwise.

3.2 As indicated in Section 6 there are material considerations relevant to this application however none are considered to be of such significant weight as would merit refusal of the application.

CONTRARY DECISION NOTE

Should the Committee agree that the application be refused contrary to the recommendation of the Head of Planning, Development and Building Standards the application will not require to be referred to the Development Services Committee as this would not represent a significant departure from policy.

Alan Neish
Head of Planning, Development and Building Standards

Note: This document combines key sections of the associated report for quick reference and should not in itself be considered as having been the basis for recommendation preparation or decision making by the Planning Authority.

BY MR V AND MRS E COX**

Report by Head of Planning, Development and Building Standards

1. PURPOSE OF REPORT

1.1 The purpose of this report is to present for determination a full planning application which is to be considered by the Local Planning Committee under the scheme of delegation as it proposes two caravans.

2. APPLICATION DETAILS

2.1 **Site Description:** The application site is to the north of Newmilns, within the Rural Protection Area, as defined in the Local Plan. The site area constitutes two fields, some existing farm buildings, and the access road to the junction of the public road. There is screening to the south of the application site from existing trees lying outwith the applicant's control.

2.2 **Proposed Development:** Full planning consent is sought in part in retrospect for the temporary (five year) siting of two caravans with a timber corridor to provide a physical link between the two and the installation of a septic tank, soakaway and timber hut. The accommodation is sought to enable the applicants to establish a livery business and organic chicken egg production unit on site. The two caravans, hut and corridor are already on site, and the applicant has been advised that a further application will be required for the siting of a hen shed, required for the proposed business. The caravans are proposed for the applicants and their family; the linking corridor is to permit sheltered access, and this demonstrates that the caravans would function as one, single residential unit. There is an existing outdoor horse arena, which will be used in connection with the livery business. The existing buildings on site will be used as stables and storage for the livery business.

2.3 In support of the application, the applicants have submitted a SAC labour justification, to demonstrate that a labour unit will be required once the business has been established and there are a total of 6000 hens on site (from a starting number of 2000). The stables are intended to accommodate 7 horses. The justification confirms that the proposal will not involve the loss of any prime agricultural land, and that it is essential to have a permanent presence on site to tend to livestock.

3. CONSULTATIONS AND ISSUES RAISED

3.1 East Ayrshire Council's Department of Neighbourhood Services – Environmental Health Division do not object to the proposal provided a satisfactory drinking water supply can be provided and drainage provision is to the satisfaction of SEPA. Further, they state that the caravan units will require to be licensed by the Environmental Health Division, an application for which should be made if and when planning consent is obtained.

A condition may be attached, should consent be granted, regarding the drinking water supply. A condition may also be attached regarding the drainage, requiring details to be approved by the Planning Authority. An advisory note may be used to confirm the need for a licence for the caravans.

3.2 East Ayrshire Council's Roads and Transportation Division do not object to the proposal provided that the access junction with the public road, is improved to meet the required sightlines and the junction reconstructed to adoptable standard, and a residential standard turning head and 3.5 metre wide carriageway with passing places can be provided.

The applicant has submitted amended plans to address these issues. Not all of the land is within the applicant's ownership therefore the land owners have been notified of the proposals, and a Legal Agreement will be required to ensure these upgrades are provided.

3.3 Scottish Environment Protection Agency does not object to the proposal provided the drainage arrangements meet their criteria, with their preferred method being a sub soil soakaway system for the disposal of septic effluent. They note that surface water should be excluded from the septic tank.

Conditions can be attached to any grant of planning permission, requiring the submission of details and provision of the proposed drainage.

3.4 Newmilns Community Council have not responded in relation to this proposal.

Noted.

4. REPRESENTATIONS

4.1 One letter of objection was originally submitted in relation to this proposal; however the objection has subsequently been withdrawn. There are therefore no objectors to this proposal.

5. ASSESSMENT AGAINST DEVELOPMENT PLAN

5.1 Sections 25 and 37(2) of the Town and Country Planning (Scotland) Act 1997 require that planning applications be determined in accordance with the development plan unless material considerations indicate otherwise. For the purposes of this application the development plan comprises the Approved Ayrshire Joint Structure Plan and the Adopted East Ayrshire Local Plan (EALP).

Ayrshire Joint Structure Plan

5.2 Policy G5 states that development proposals outwith settlements in the Rural Protection Areas shall conform to the structure plan only where the development:

A has a demonstrated site specific locational need;

The proposed caravans have a site specific locational need to be located at High Bowhill Farm as the applicants want to live on site whilst they establish a livery business and an organic egg production unit. The relative remoteness of the site and the quality and condition of the land are key to the organic nature of the proposal.

B can be justified in terms of social and economic benefit to the community;

Not applicable.

C contributes to rural land diversification: or

Not applicable.

D provides for the operational needs of agriculture and forestry.

The proposed caravans comply with the operational need requirement, as they form part of a wider proposal for the establishment of an agricultural business.

East Ayrshire Local Plan

5.3 Policy RES12 states that the use of caravans and non-permanent dwellings on sites other than those specifically authorised for such purposes will not be permitted. However, the policy also states that temporary consent may be granted in special circumstances where on-site temporary accommodation is required pending the construction of a permanent dwelling or where a temporary, proven, site specific locational need can be demonstrated to the satisfaction of the Council.

The proposed caravans have a site specific locational need to be located at High Bowhill Farm as the applicants want to live on site while they seek to establish a livery business and organic egg production unit, and an agricultural justification has been submitted to this effect.

It is therefore considered that the caravans are acceptable on a temporary basis while the applicant seeks to establish the livery and organic egg production businesses, and are consistent with Development Plan policy.

6. ASSESSMENT AGAINST MATERIAL CONSIDERATIONS

6.1 The principal material considerations relevant to the determination of this application are the consultation responses received which are addressed in Section 3 of the report, the letter of objection addressed in Section 4 of the report, the planning history of the site and impact upon the amenity of the area.

Consultation Responses

6.2 The consultation responses are detailed in the report and do not raise any issues sufficient to warrant refusal of this application.

Letter of Objection

6.3 As indicated in 4.1 above, there are no objectors to this proposal.

Planning History

6.4 There are no records of any previous planning applications at this site.

6.5 A planning application to the immediate north west of the application site (Planning Ref: 05/0775/FL – proposed change of use and alterations of farm buildings to form an extension to an existing farm house and change of use and alterations to existing farm buildings to form 2 No. new dwellinghouses) is being

considered at present. Although utilising the same access track, it is not considered that this application will affect the recommendation of the application which is the subject of this report.

Impact Upon Amenity

6.6 The impact on the amenity of the area is considered to be acceptable. In terms of visual impact the site is relatively isolated and the consent sought is temporary. It is well screened from the south by existing trees, outwith the application site. The consultees have raised no issues in terms of drainage and roads which are considered to create an unacceptable impact upon the amenity of the area.

7. FINANCIAL AND LEGAL IMPLICATIONS

7.1 There are no financial implications for the Council in the determination of this application. The applicant will require to enter into a Section 75 Legal Agreement in relation to the upgrading of the road, with this involving a new residential turning head, road widening, provision of passing places, extended sightlines and junction formation to adoptable standard, all as indicated on the submitted plans and all to be provided prior to the commencement of commercial operations in respect of the livery and egg production unit.

8. CONCLUSIONS

8.1 As indicated in Section 5 of the report, this application is considered consistent with the Development Plan. Therefore the application should be approved unless material considerations indicate otherwise.

8.2 As indicated in Section 6 there are material considerations relevant to this application however none are considered to be of such significant weight as would merit refusal of the application.

9. RECOMMENDATION

9.1 It is recommended that the application for planning permission be approved subject to the conditions listed on the attached sheet but that permission not be issued until the Solicitor to the Council has concluded a formal Agreement with the applicants under Section 75 of the Town and Country Planning (Scotland) Act 1997 in respect of the points raised in paragraph 7.1 of the report.

CONTRARY DECISION NOTE

Should the Committee agree that the application be refused contrary to the recommendation of the Head of Planning, Development and Building Standards the application will not require to be referred to the Development Services Committee as this would not represent a significant departure from policy.

EAST AYRSHIRE COUNCIL

TOWN & COUNTRY PLANNING (SCOTLAND) ACT 1997

Site of Proposal: High Bowhill Farm
NEWMILNS KA16 9LG

Nature of Proposal: Proposed Temporary Consent (5 years) for Location of Two Caravans and Timber Linking Corridor and Installation of Septic Tank and Soakaway and Timber Hut Accommodation to Enable Establishment of Livery Business and Organic Chicken Egg Production Unit

Name & Address of Applicant: Mr V and Mrs E Cox
36 High Street
NEWMILNS KA16 9EA

Name & Address of Agent: William Wylie
Chartered Architect
Kirkgate
10 Main Street
SYMINGTON KA1 5QE

DPOs Reference: (CP/RH/MMM)

The above FULL application should be granted subject to the following conditions:-

1. Permission is granted for a limited period of five years from the date hereof, provided the organic chicken egg production unit is established within 3 months of the date of this consent. Following the expiration of five years from the date of consent, or in the event of the organic chicken egg production unit not being established within the aforementioned timescale, the land shall be restored in accordance with a scheme to be agreed in writing with the Planning Authority unless further permission is granted.

REASON In order to establish the business justification on site and as the proposed caravans and buildings are of a temporary nature.

2. Details of foul drainage arrangements shall be submitted to and approved in writing by the Planning Authority within one month of the date of this consent.

REASON In the interests of public health and residential amenity.

3. The approved foul drainage arrangements shall be implemented and operational within three months of the date of this consent and thereafter maintained in accordance with the approved details.

REASON In the interests of public health and residential amenity.

4. Notwithstanding the plans hereby approved, the septic tank provided to serve the development shall be sited in such a manner as to allow easy access for emptying by the tanker.

REASON In the interests of public safety.

5. Surface water shall be excluded from the septic tank.

REASON In the interests of public safety.

6. The applicant shall ensure that the site is served by a wholesome and adequate water supply, within one month of the date of this consent and thereafter maintained.

REASON In the interests of residential amenity.

7. No construction work relating to the proposed development shall be undertaken before 08:00 and after 17:00 on Mondays to Fridays and before 08:00 and after 13:00 on Saturdays nor at any time on Sundays.

REASON To minimise noise disturbance, in the interests of residential amenity.

NOTES:-

1. The applicant must obtain a Road Opening Permit from East Ayrshire Council's Roads and Transportation Division prior to the commencement of the road works at the junction with the public road.
2. The applicant is advised that any drainage disposal outfall extending beyond the site boundary should have wayleave consent of the landowner, if outwith the ownership of the applicant.
3. The applicant is advised that the caravan units will require to be licensed by East Ayrshire Council's Department of Neighbourhood Services,

Environmental Health Division, under the terms of the Caravan Sites and Control of Development Act 1960, and Model Standards made thereunder.
