

EAST AYRSHIRE COUNCIL

EDUCATION COMMITTEE : 11 APRIL 2002

WORKING TOGETHER TO STRENGTHEN SERVICES – PROGRESS REPORT

Report by the Director of Educational and Social Services

1. PURPOSE OF REPORT

- 1.1 To inform members of the Committee of progress in achieving the initial targets set for joint working within the Department of Educational and Social Services and to propose further targets on joint working for action by the Department in the next 12 months.

2. BACKGROUND

- 2.1 In September 2000, Social Work and Education Committees approved a report, "Working Together to Strengthen Services", by the Director of Educational and Social Services on initial management arrangements for the newly merged Department of Educational and Social Services and proposed key targets for the new Department in its early years of operation.
- 2.2 In approving the report, both Committees invited the Director to present progress reports on achieving targets for action to appropriate committees.
- 2.3 This report presents progress on achieving the initial targets for joint working and sets out proposed further targets for the next 12 months.

3. ACHIEVEMENTS

- 3.1 Progress on achieving the initial targets for the Department is summarised in the table attached as Appendix 1 to the report.
- 3.2 Committee will note that considerable progress has been made in working together. The vision to draw together the resources of Education and Social Work is proving successful. Increasingly, initiatives developed and taken forward for action by the Scottish Executive and Committees of the Council are based on coherent joint plans, involving support from Education and Social Work. Amongst the initiatives being implemented are:
 - better social and educational outcomes for looked after and accommodated children;
 - anti-drugs initiatives;

- roll out of New Community Schools;
- integrated children's services;
- initiatives to tackle youth crime.

3.3 While it is necessary to have an action plan and targets to focus on the progress to be made, there is clear evidence that there is already a significant shift in attitudes and increased joint planning and delivery of services.

4. FUTURE TARGETS

4.1 In order to achieve further progress, a number of priorities for action have been identified for attention over the forthcoming 12 months. The priorities fall within the same broad aims as set out in the initial action plan but focus on specific targets relevant to current local and national development objectives.

4.2 The targets are underpinned by a common set of principles, which require them to be:

- focused on better outcomes for service users;
- consistent with existing strategic and service priorities;
- challenging but achievable;
- inclusive.

4.3 The proposed future targets for joint working are summarised in the table attached as Appendix 2 to the report.

5. POLICY/FINANCIAL/LEGAL IMPLICATIONS

5.1 There are no policy, financial or legal implications for the Council arising from this report.

6. RECOMMENDATIONS

6.1 Committee is requested to:

- a) note the achievements made with the initial joint working targets set for the Department, as contained in Appendix 1;
- b) approve the proposed future targets, as contained in Appendix 2;
- c) ask the Director of Educational and Social Services to circulate this information widely;
- d) invite the Director of Educational and Social Services to present progress reports on achieving the new targets for action to appropriate committees; and

e) otherwise, note the content of the report.

John Mulgrew
Director of Educational and Social Services
28 March 2002
