**COMMENTS:-** The Director of Homes and Technical Services has commented that this application supports the transport scheme which addresses the needs of local groups, the elderly and the underprivileged in communities in the Northern Area. There are currently 32 affiliated organisations to the Community Transport Scheme. The area for repair which consists of loose cladding above the door of the garage facility presents a danger to users, the general public and the vehicle. The repairs will prevent further deterioration of the garage facility and provide safe accommodation for the vehicle and remove the general risk. The cost of the repair represents value for money given the safety implications and it is recommended that the Committee award £118.
